Comicforschung

Gesellschaft für Medienwissenschaft (GfM)

Comics have gained increasing momentum within German and international discourses. The Working Group for Comic Research (AG Comicforschung) was founded in 2013 with the mission to promote the interdisciplinary study of comics and to connect comic researchers.

To serve this purpose, we organize conferences, workshops, round tables, and panels. In cooperation with the German Society for Comics Studies (ComFor), we grant the annual Martin Schüwer-Publication Award for outstanding comics research (Martin Schüwer-Publiaktionspreis).

The Working Group for Comic Research aspires to increase the visibility of and support for diverse scholars and to raise awareness of inequalities in the field. Therefore, we commit ourselves to increasing opportunities while advocating against discrimination and the exclusion of marginalized persons or groups in academia.

We are looking forward to meeting you!
